Dear Ian

URIMAT Urinal experience

It is my pleasure to give feedback on our experience with the URIMAT waterless urinals.

We have had 4 URIMAT waterless urinal units for over 6 months now. They were a good cost effective solution to updating our 17 year old urinals, as we could box in the old units with polycarbonate sheeting and attach the 4 units to that, so we weren't involved in expensive renovation of the whole toilet area. I no longer have a constant battle with leaking cisterns and smelly urinals. Those days have gone! The units are neat, clean and easy to maintain, plus saving water in this day and age just added weight to the equation. I highly recommend the URIMAT waterless urinal units

Yours Faithfully
